POWER STATEMENT

Passionate Computer Science student with a strong interest in AI/ML and software development. I enjoy turning ideas into practical projects, solving problems through code, and continuously learning new technologies. Experienced in Python, Java, C, SQL, AI chatbots, RAG, embeddings, web development, and database applications, with hands-on experience through hackathons and college projects.

Professional Summary

Motivated 2nd-year Computer Science student with a strong interest in AI/ML and software development, experienced in building AI-powered applications, chatbots, and frontend projects. Participated in hackathons and college project expos, including developing the Smart College Problem Reporter and a Fire Simulator project. Skilled in Python, Java, C, SQL, HTML, CSS, Streamlit, Ollama, RAG, embeddings, Git, GitHub, and database technologies, with a strong passion for learning and problem-solving.

Areas of Expertise

- **Programming Languages:** Python, Java, C, SQL
- **Web Technologies:** HTML, CSS
- **AI / Machine Learning:** AI Chatbot Development
- **Frameworks & Tools:** Streamlit, Ollama, GitHub, VS Code
- **Databases:** SQLite, MySQL
- **Core Computer Science:** Object-Oriented Programming (OOP), Data Structures, Algorithms, DBMS
- **Development:** Frontend Application Development, Chatbot Development, Streamlit Application Development
- **Soft Skills:** Problem Solving, Communication, Teamwork, Time Management, Adaptability, Critical Thinking, Creativity

Accomplishments

- Participated in a **Hackathon** as a team member and developed the **Smart College Problem Reporter** project.
- Presented a project at a **College Project Expo**, gaining experience in project demonstration and technical presentation.
- Developed an **AI/ML-based Fire Simulator project** as part of academic/project work.
- Earned **NASSCOM certification** and completed **Cisco certifications** in Python, C, and related training.
- Participated in a **Data Analytics Workshop** conducted by the college and received a certificate.

Education

B.Tech — Malla Reddy Engineering College for Women — First Year CGPA: 8.85
Nlveditha High School, Hyderabad — School CGPA: **9.5**

Technical Proficiencies

Python • Java • C • SQL • HTML • CSS • Streamlit • Ollama • GitHub • VS Code • MySQL • SQLite • OOP • Data Structures • Algorithms • DBMS

Projects

Smart College Reporter - Full-Stack Web Application
Developed a platform for students to report and track college issues, with an admin system for managing complaints. Built as a team project for a hackathon.

AI Error-Fixing Chatbot
Developed an AI-powered chatbot that identifies coding errors and provides suggested fixes and explanations using LLM-based AI.

Gopuram - Temple Information Website
Developed a multi-page temple information website using HTML and CSS. Designed responsive pages with navigation, images, and detailed temple information.
